RCA Male Compression Connector for QUAD Shield RG6 Cables.

The quality connectors feature a metal housing with easy grip, textured rings for easy insertion and removal of the finished cable. Nylon compression ring ensure a tight grip and won't slip off when properly installed. Great for making your own RCA cables for audio and/or video with your own bulk RG6 Coax cables. Use them to cut and refinish existing cables for a more custom fit and less cable clutter.

**Note: You will need appropriate coax cable stripper and a compression crimper (see product to right) with an RCA compatible tip. Suitable for use with QUAD SHIELD RG6 cable.**
