Modern, sleek 4 port USB charger with support for QUICK CHARGE technology providing a regulated 3.6V to 12V 2.4 Amp power supply to one of the USB ports. This UL and CE listed, and FCC compliant QUICK CHARGE v2 technology allows certain devices to negotiate with the charging block to optimize the charging voltage and amperage reducing the charge time for such support device from 6 hours to less than 60 minutes. Purchase the EU 240V adapter (sold separately, see part FE-ADT-313) to allow this charging block to be used in both North American, Europe, and parts of Asia.

Specifications

- 4 USB charge ports total
- Port 1: USB Type A - 3.6v to 12v at 2.4Amp (18W) Quick Charge
- Ports 2 and 3: USB Type A - 5v at 2.4Amp
- Port 4: USB Type C - 5v at 3A
- Input: AC110-240v 50/60Hz 0.2Amp
- Product Dimensions: 58x62x29mm
- North American 110v detachable inputs supplied
- CE Listed (2014/35/EU), complies with FCC interference regulations
- UL Listed and Tested (UL 62368-1)
- Manufacturer Part #: KP-4U
- European 240v detachable input SOLD SEPARATELY (See product **FE-ADT-313**)
- Weight: 110g
