IMPORTANT NOTE: USB 3.2 Gen 1 terminology defines certain data speeds and specifications that a USB 3 cable adheres to. Many of our USB 3.2 Gen 1/Gen 2 cables have physical markings on the cable raw material that only state "USB 3". The cable assembly itself has met and certified to meet **USB 3.2 Gen1** specifications based on the product title description.

Right angle adapter allows easy access to those hard to get at USB 3 ports. Type A (standard) fits MOST newer computers that have the newer USB 3 ports.
