Build your OWN Keystone wallplate combination!

- Version 2.0 Tested Certified
- Female HDMI on both front and back
- Flexible 8 inch 28AWG Cable allowing to exit the gang box in ANY direction
- BOTH ends have keystone molded ends allow product to be used as a "jumper" if desired
- Gold-plated connections

Important Note for 3D TVs and v2.0 Support of HDMI with Ethernet: Although these keystone inserts were originally manufactured and tested to meet ATC v1.4 specifications, our manufacturer has confirmed that they will ALSO meet any future HDMI revisions, including but not limited to v2.0. They are FULLY compable with 3D technologies. The use of COUPLERS or WALLPLATES with any HDMI circuit will add a small amount of resistance and may affect the ability to successfully transmit the required data rate
