<b># Positions:</b>		<b>Shielding:</b>	Shielded
<b>Convert From/To:</b>		<b>Type:</b>	

This cable type is used primarily for charging of small devices (such as smart phones and tablets) that use the USB Type-C connector. It CAN also be used for data transfer, but because it uses the legacy USB 2.0 Type-A connector (to be attached to the charging block - or computer port), the data transfer speeds are limited to 480Mbps. For FASTER data transfer speeds up to 5Gbps, please see our [USB 3.2 Gen1 Type-A to Type-C cables](#).

This USB 2.0 cable features a male USB Type-C connector on one end, and a (legacy) USB 2.0 Type A Male connector at the other end.

#### Features and Specifications:

- Use a single cable for power, video, networking, and data
- USB 2.0 supports up to 480Mbps data rate
- Supports Super Fast Charging and Syncing
- Shielded cable, 28/24AWG
- USB Standard: 2.0
- Type: USB Type C male to USB 2.0 Type A male
- Using our NEW ultra-slim Type-C over-mold (Dimensions: 22L x 11W x 6.5H mm)
- Power Rating: Up to 5V, 2A
