Feature / Style:		Images Length/Size Shown:	8 IN
# Positions:	15	Shielding:	Shielded
Convert From/To:		Type:	HD15

Connects two VGA monitors to one computer with HD15 female port, or vice versa. Ideal for presentations, conferences and training purposes. Supports VGA/XGA monitor, projector and analog flat panel display. For high resolution VGA over longer distances, please use VGA splitter with built-in booster. This cable has foil shielding to prevent signal loss, screen ghosting and loss of color. This cable has molded ends with thumbscrews.
(Connectors: HD15 Male to 2 Female; Length: 6inch).

- Notes:**
- This product is NOT intended as a video distribution system.
 - Using a NON-POWER method to split video may result in some signal or resolution loss
 - Using longer lengths of cable (ie > 10ft) after splitting a video signal WILL result in some signal loss
 - We do **NOT** recommend the Y-Cable splitter solutions for cable lengths longer than 20ft after the split. See the suggested **POWERED splitter** shown to the right under heading "Related Products"
