

Intelligent upgrade version of real time charging

We can charge up to 8 devices at the same time as the charger has 8 individual USB ports, Supports many kinds of devices such as mobile phones, IPAD, MP3 and other devices.

Real-time flash charging , efficient and time-saving  
Support 2A fast charging, save a lot of time by increasing the speed of the charge

Product size:138\*75\*50mm

Color: White

Material: ABS+PC Shell

Input: 100-240V 50/60HZ 0.6A

Output: DC 5V-5A MAX. 8A

Intelligently matching different digital devices

Built-in smart chip, automatically matching equipment required current, support iPhone mobiles, Android mobiles and more than 95% brands' mobile phones,  
Charging iPad and other tablet computers.

7 Protection Systems ensure more security, Prevent overcharge and short circuit, stable, reliable and safe

Built-in intelligent protection system, multiple safety protection ,effectively prevent overcharge and short circuit, stability, reliability and safe.

- 1)Overcharge protection: preventing overcharging of current.
- 2)Overheating protection: preventing overheating of current when charging and discharging.
- 3)Short circuit protection: automatic protection in case of short circuit
- 4)Overdischarge protection: preventing overdischarge of batteries
- 5)Power protection: preventing overpower discharge from battery
- 6)Overvoltage protection: preventing overcharging of batteries when charging and discharging.
- 7)Overcurrent protection: preventing excessive current in battery discharge
