FULL MOTION 2-ARM CORNER Wall Mount Bracket 42-74" TVs to 135 lbs

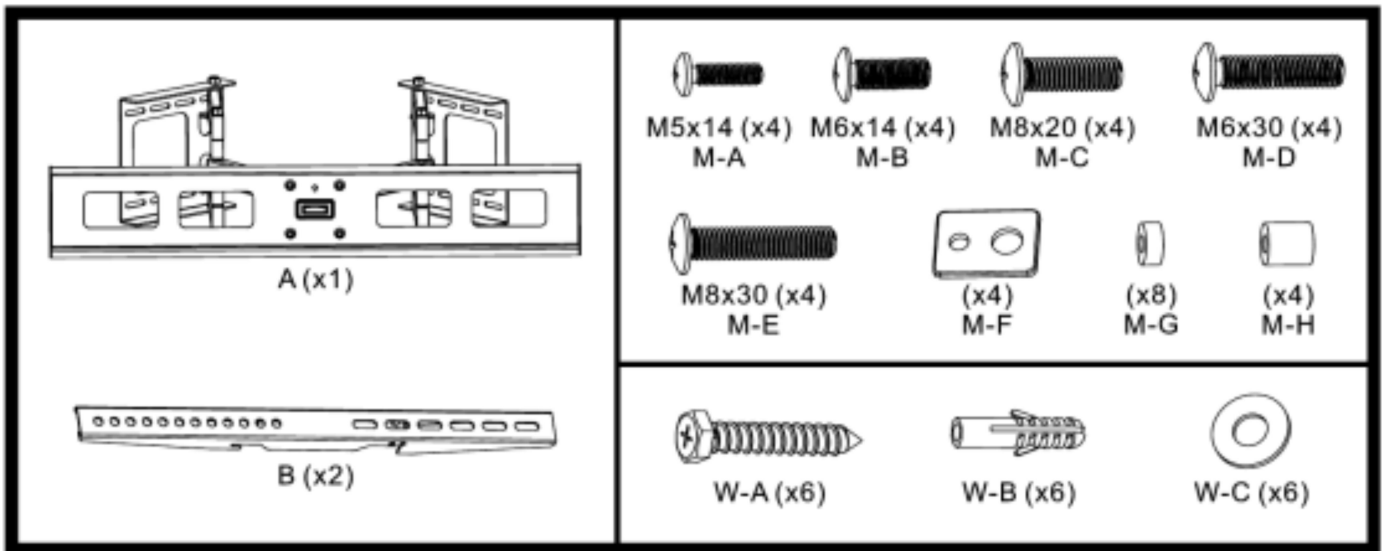

Read the entire instruction manual before you start installation and assembly. If you have any questions regarding any of the instructions or warnings, please contact your local distributor for assistance.

CAUTION: Use with products heavier than the rated weights indicated may result in instability causing possible injury.

- Mounts must be attached as specified in assembly instructions. Improper installation may result in damage or serious personal injury.
- Safety gear and proper tools must be used. This product should only be installed by professionals.
- This product is designed to be installed only on solid concrete walls or brick walls.
- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.
- Use the mounting screws provided and **DO NOT OVER TIGHTEN** mounting screws.
- This product contains small items that could be a choking hazard if swallowed. Keep these items away from children.
- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.

IMPORTANT: Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, telephone your local distributor for a replacement.

MAINTENANCE: Check that the bracket is secure and safe to use at regular intervals (at least every three months).

SPECIAL CORNER MOUNTING CONSIDERATIONS

Our specifications indicate support for TVs up to 74". However, CORNER MOUNTING at a 45-degree angle may require some additional site preparation. Although larger TVs will properly fit on the mount itself, when attempting to attach the 2 rear-plates to the wall, a larger TV may not clear the wall even with the mount arms fully extended. One may first have to install suitable "filler-shims" made from material such as (2) 2by4's (laid flat) for each rear plate. This will allow for the mount structure to be extended further from the wall, and thus allowing the edges of the TV to clear the wall.
