Operating Instructions:

Power on Bluetooth Transceiver BT17

Connect Bluetooth transceiver with a Type-C cable included.

You may use either a USB port on your TV or a wall plug (via a USB adapter that supports 5V)

Press and hold "①" for 3 seconds to power on the Bluetooth transceiver.

Preparation before setup

1. If you're using it as a Bluetooth receiver (Bluetooth-enabling your speaker or sound system,) please refer to context of use 1;
2. If your TV is connected to your sound system (e.g. Sound Bar, AV receiver, external speaker) already, please use "bypass" feature and refer to context of use 2;
3. If you're only using it with your TV, please refer to context of use 3.

Context of Use 1: Using as a Bluetooth Receiver (RX mode)

1. Switch Bluetooth Transceiver to RX mode, "RX" will be shown on the screen;
2. Connect with speaker/ Soundbar-
 - With 3.5mm Audio Cable
 - With 3.5mm to RCA Audio Cable
 - With Optical Audio Cable
3. Turn on the Bluetooth on your phone or other device and search for "BT17"- tap to connect;
4. Once connected, the name of mobile phone or Bluetooth device will be shown on the screen;
5. Press the MFB ⑤ to pause the music or clockwise/anti-clockwise rotate to increase/decrease the volume.

Please note:

- a. Bluetooth transceiver can connect two mobile phones/devices at the same time.
- b. The transceiver will automatically reconnect to the most recently connected two devices once the Bluetooth of that device has been switched ON.
- c. Press Bluetooth button to disconnect current paired devices.

Fig 1: Set up Bluetooth transceiver as Bluetooth Receiver

Context of Use 2: Connect Bluetooth transceiver to your TV (BYPASS mode)

“Bypass mode” allows you to use the Bluetooth transceiver and the Sound bar/Sound System at the same time.

1. Press “③” to switch the Bluetooth transceiver to bypass mode, “BYPASS MODE” will appear on the screen.
2. Connect TV and sound system referred to Fig 2.

Please make sure that you use the same type of input / output, e.g:

- If you’re using the OPTICAL cable with TV, please use OPTICAL cable to connect to sound system.
- If you’re using the AUX/RCA cable to connect to TV, please use AUX/RCA cable to connect to sound system.

Fig 2: Connect to Bluetooth Transceiver to Sound System (BYPASS mode)

Context of Use 3: Connect Bluetooth transceiver to your TV/audio source and Bluetooth headphones/speakers (TX mode)

1. Press "③" to switch Bluetooth transceiver to TX mode, "TX" will appear on the LCD screen
2. Power on Bluetooth headphone/ speaker and set them in pairing mode.
3. Keep them close to each other and wait. The name of searched Bluetooth headphone/speaker will appear on the screen.
4. Press the MFB to confirm and a voice prompt will let you know the connection is successful.

◆ How to connect the second headphone/speaker:

- 1) Enter the second headphone into pairing mode.
- 2) Press Bluetooth button "②" to search devices.
- 3) Press the MFB to confirm

◆ How to choose the paired Bluetooth headphones/speakers:

1. Press Bluetooth button "②" to disconnect current two paired devices.
2. The transceiver will automatically enter searching mode and all searched devices name will appear on the screen. (One page only can show four device name)
3. Clockwise/anti-clockwise rotate the MFB to choose the device you need then press to confirm.

◆ How to automatically connect two Bluetooth headphones/speakers:

Press ④ to disconnect current two paired devices and automatically enter searching

and connecting model. Once connected, two devices name will appear on the screen.

Please note:

1. The transceiver will automatically reconnect to the recently connected two headphones/ speakers once they are on pairing mode.
2. Please choose correct output before connecting. (refer to fig 3)
